General Statement of Professional Experience (written by firm)

I have been performing industrial hygiene related evaluations since September of 2001. These evaluations include testing for asbestos, lead based paints, mold (both viable and non-viable), bacteria, indoor contaminants / chemicals, infrared thermographic testing for water damages and building commissionings, etc. Prior to employment with AQM, I was an asbestos abatement supervisor and performed oil response spill clean-up work. I have an Associates Degree in Health & Safety as well as Business Management from Central Maine Technical College (now Central Maine Community College).
